<b>Principal Hazardous Component (s)</b>	<b>(Chemical and Common Name (s))</b>	<b>%</b>	<b>Threshold Limit Value (units)</b>
This material has not been evaluated as a whole. All ingredients are bound in a polymer matrix and potential for hazardous exposure as shipped is minimal. However, some fumes may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respirator program, etc.) to protect his employees from exposure. (See Section 8 - Special Precautions.) The following ingredients are considered hazardous per OSHA 1910.1200:			
	<b>Metallic Powder</b>		<b>Nuisance dust</b>
If Chemical is not specifically identified, it is considered proprietary.
