| <b>Chemical Name:</b>  | Plastic Compound (Mixture)   | <b>Chemical Family:</b>              | Polyamide                            |
|  | Stainless Steel Powder   |                                      | Refractory Metal                     |
| <b>Formula:</b>  | Proprietary  |                                      |                                      |
| <b>SECTION 3 - HAZARDOUS INGREDIENTS</b>   |  |                                      |                                      |
| <b>Principal Hazardous Component (s) (Chemical and Common Name (s))</b>  | <b>%</b>   | <b>Threshold Limit Value (units)</b> |                                      |
| This material has not been evaluated as a whole. All ingredients are bound in a polymer matrix and potential for hazardous exposure as shipped is minimal. However, some fumes may be released upon heating and the end-user (fabricator) must take the necessary precautions (mechanical ventilation, respirator program, etc.) to protect his employees from exposure. (See Section 8 - Special Precautions.) The following ingredients are considered hazardous per OSHA 1910.1200: |  |                                      |                                      |
| <b>Metallic Powder</b>   |  | <b>Nuisance dust</b>                 |                                      |
| If Chemical is not specifically identified, it is considered proprietary.  |  |                                      |                                      |
| <b>SECTION 4 - PHYSICAL &amp; CHEMICAL CHARACTERISTICS (FIRE &amp; EXPLOSION DATA)</b>   |  |                                      |                                      |
| <b>Boiling Point</b>   | N/A  | <b>Specific Gravity</b>              | 3.5 - 4.5                            |
|  |  | <b>Vapor Pressure (mm Hg)</b>        | N/A                                  |
| <b>Percent Volatile by Volume (%)</b>  | N/A  | <b>Vapor Density (Air = 1)</b>       | Solid                                |
|  |  | <b>Evaporation (_____ = 1)</b>       | Solid                                |
| <b>Solubility in Water</b>   | Insoluble  | <b>Reactivity in Water</b>           | None Known                           |
|  |  | <b>Flash Point</b>                   | N/A                                  |
| <b>Flammable limits in air by Volume</b>   | LEL Lower N/A  | UEL Upper N/A                        | <b>Extinguisher Media</b> All Common |
|  |  |                                      | <b>Auto-Ignition Temperature</b> N/A |
| <b>Appearance and Odor:</b>  | Gray pellet, slight odor   |                                      |                                      |
| <b>Special Fire Fighting Procedures</b>  | Self-contained breathing apparatus should be worn to prevent inhalation of smoke and decomposition products in the event the material should burn. |                                      |                                      |

| Other Protective<br>Clothing or Equipment  | No   |                                 |                             |                              |  |                            |

# MATERIAL SAFETY DATA SHEET

**Technical Polymers**

**Ecomass Compound 1080ZC86**

**SECTION 8 - SPECIAL PRECAUTIONS AND SPILL/LEAK PROCEDURES**

**Precautions to be Taken in Handling and Storage**

**Other Precautions**                      Upon heating some fumes may be released. ADEQUATE mechanical ventilation and/or a properly maintained respiratory protection program is required. **DO NOT PUT IN MOUTH.**

**Steps to be Taken in Case Material is Released or Spilled**                      Scoop or shovel material and return to original container. See Section 9 for Applicable State and Federal regulations.

**Waste Disposal Methods**                      Dispose of in accordance with all Local, State and Federal regulations.

**SECTION 9 - REGULATORY INFORMATION**

The following ingredients of this mixture are reportable as listed under Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA) and 40 CFR Part 372:

|  |
