Robert Durkee, President of General Partner (512) 306-0020 Ext. 1 Email: durkee@ecomass.com

Name and telephone number, including area code, of the person to contact in connection with this report.

Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2015.

Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Ecomass Technologies, LP (hereinafter "Ecomass") is not an "issuer" or a "registrant" with the SEC and is therefore not required to file the annual disclosures required by Section 1502 of the Dodd-Frank Act (hereinafter the "Act").

However, Ecomass imports tungsten products in various forms for manufacture or resale and, as a "non-issuer supplier" in support of our customers who may be required to file such annual disclosures pursuant to the Act, Ecomass makes the following statements and declarations:

In accordance with the execution of Ecomass's stated Policy, Ecomass has concluded in good faith that for the calendar year ending December 31, 2015:

- a) Ecomass has manufactured and contracted to manufacture products as to which tungsten, a "conflict mineral" as defined in the Act, is necessary to the functionality or production of such products and is therefore a "necessary conflict mineral" as defined in the Act.
- b) Ecomass's primary means of determining country of origin of its necessary conflict mineral is by conducting a supply-chain survey with direct suppliers using the EICC/GeSI Conflict Minerals Reporting Template ("CMRT") published by the Conflict-Free Sourcing Initiative ("CFSI") and comparing the results of the survey on smelter information with CFSI's list of Conflict-Free Smelter Programs ("CFSP"). Ecomass surveyed 100% of its direct suppliers who collectively represent 100% of total procurement activities for its necessary conflict mineral and 100% of them have provided a response to the supply-chain survey. Based on a "reasonable country of origin inquiry" (RCOI) performed in good faith and reasonably designed to determine whether any of its conflict mineral that is not from recycled or scrap sources originated in the Covered Countries, Ecomass (with one exception – see Item 1.01 (d) below) knows or has reason to believe that none of its necessary conflict mineral originated or may have originated in the Democratic Republic of the Congo or an adjoining country (collectively, sometimes referred to as the "Covered Countries") or knows or has reason to believe that its necessary conflict mineral is from recycled or scrap sources. Ecomass's RCOI employed a combination of measures to determine whether the necessary conflict mineral in Ecomass's products originated from the Covered Countries.

c) As a result of performing the RCOI and based on a careful review of the results thereof, Ecomass has concluded that (with one exception - see Item 1.01 (d) below) (i) its necessary conflict mineral did not originate in a Covered Country, (ii) its necessary conflict mineral came from recycled or scrap sources; (iii) it has no reason to believe that its necessary conflict mineral may have originated in a Covered Country, or (iv) its necessary conflict mineral was “outside the supply chain” (as referenced in the Act and defined in SEC Final Rule, p. 129) before January 31, 2013.

d) Ecomass has determined that the RCOI survey completed by its suppliers represents the most reasonable effort Ecomass can make to determine the mines or locations of origin of any necessary conflict minerals contained in its supply chain. Ecomass’s due diligence on the source and chain of custody of the necessary conflict minerals revealed there was one exception to the statements in Item 1.01 (b) & (c) above. Xiamen Tungsten (H.C.) Co. Ltd. (“Xiamen”) indicated it processed minerals sourced from two of the covered countries, Burundi and Rwanda. There are eighteen (18) smelters/refiners indicated on the CMRT’s provided by Ecomass’s direct suppliers. Of these,

- Thirteen (13), including Xiamen, are listed in CFSP Table 1 indicating they are TI-CMC Members and are CFSP Compliant Tungsten Smelters, having successfully completed a CFSP compliance audit conducted by an independent third party audit.
- Four (4) are listed in CFSP Table 2 indicating they are TI-CMC Category A Members progressing toward CFSP Table 1 Compliance by completing a CFSP validation audit within two (2) years of TI-CMC membership issuance.
- One (1), Sanher Tungsten Vietnam Co., Ltd., is not listed in any CFSP category but indicates 100% of their feedstock originates from recycled or scrap sources and therefore qualifies under Item 1.01 (c) (ii) above.

e) Attached is Exhibit 1.01 “Ecomass Form SD Supply Chain Summary – CMRT” containing a summary of the information collected from all supply-chain survey respondents. As stated above, Ecomass is not required to file this Specialized Disclosure Form (Form SD) with the SEC. Furthermore, even if filing was required for Ecomass’s Form SD, the facts and conclusions of the RCOI dictate that neither (i) a Conflict Minerals Report; (ii) an Independent Private Sector Audit; or (iii) additional due diligence measures would be required by the Act. Form SD is posted to a publicly available Internet site at www.ecomass.com.

Section 2 – Exhibits

Item 2.01 Exhibits

Exhibit 1.01 – “Ecomass Form SD Supply Chain Summary - CMRT” as required by Items 1.01 and 2.01 of this Form.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 as applicable to Ecomass’s customers who may be subject to the Act, Ecomass has duly caused this report to be signed on its behalf by the duly authorized undersigned.

Revision 4.10
April 29, 2016

The purpose of this document is to collect sourcing information on tin, tantalum, tungsten and gold used in products

Link to Terms & Conditions

Mandatory fields are noted with an asterisk (*).

Company Information
Company Name (*): Ecomass Technologies
Declaration Scope or Class (*): A. Company
Description of Scope:
Company Unique ID: 143332760
Company Unique ID Authority: DUNS
Address: 4101 Parkstone Heights Drive, Suite 380, Austin, TX 78746-7482 USA
Contact Name (*): Robert Durkee
Email - Contact (*): durkee@ecomass.com
Phone - Contact (*): 512-306-0020
Authorizer (*): Robert Durkee
Title - Authorizer: President
Email - Authorizer (*): durkee@ecomass.com
Phone - Authorizer (*): 512-306-0020
Effective Date (*): 7-May-2016

Answer the following questions 1 - 7 based on the declaration scope indicated above

1) Is the 3TG intentionally added to your product? (*)
Tantalum (*): No
Tin (*): No
Gold (*): No
Tungsten (*): Yes

2) Is the 3TG necessary to the production of your company's products and contained in the finished product that your company manufactures or contracts to manufacture? (*)
Tantalum (*): No
Tin (*): No
Gold (*): No
Tungsten (*): Yes

3) Do any of the smelters in your supply chain source the 3TG from the covered countries? (SEC term, see definitions tab) (*)
Tantalum:
Tin:
Gold:
Tungsten (*): Yes

4) Does 100 percent of the 3TG (necessary to the functionality or production of your products) originate from recycled or scrap sources? (*)
Tantalum:
Tin:
Gold:
Tungsten (*): No

5) Have you received data/information for each 3TG from all relevant suppliers? (*)
Tantalum:
Tin:
Gold:
Tungsten (*): Yes, 100%

6) Have you identified all of the smelters supplying the 3TG to your supply chain? (*)
Tantalum:
Tin:
Gold:
Tungsten (*): Yes

7) Has all applicable smelter information received by your company been reported in this declaration? (*)
Tantalum:
Tin:
Gold:
Tungsten (*): Yes

Answer the Following Questions at a Company Level

Question
A. Do you have a policy in place that addresses conflict minerals sourcing? (*)
B. Is your conflict minerals sourcing policy publicly available on your website? (Note - If yes, the user shall specify the URL in the comment field.) (*)
C. Do you require your direct suppliers to be DRC conflict-free? (*)
D. Do you require your direct suppliers to source the 3TG from smelters whose due diligence practices have been validated by an independent third party audit program? (*)
E. Have you implemented due diligence measures for conflict-free sourcing? (*)
F. Do you collect conflict minerals due diligence information from your suppliers which is in conformance with the IPC-1755 Conflict Minerals Data Exchange standard [e.g., the CFSD Conflict Minerals Reporting Template]? (*)
G. Do you request smelter names from your suppliers? (*)
H. Do you review due diligence information received from your suppliers against your company's expectations? (*)
I. Does your review process include corrective action management? (*)
J. Are you subject to the SEC Conflict Minerals rule? (*)

TO BEGIN:

Option A: If you know the Smelter Identification Number, input the number in Column A (columns B, C, D, E, F, G, I, and J will auto-populate).

Option B: If you have a Metal and Smelter Reference List name combination, complete the following steps:

- Step 1. Select Metal in column B
- Step 2. Select from dropdown in column C (wrong combination will trigger RED color)
- Step 3. If dropdown selection is "Smelter Not Listed" complete columns D & E
- Step 4. Enter all available smelter information in columns H thru P

Mandatory fields are noted with an asterisk (*).

NOTE: A combination of Options A and B can be used to complete the Smelter List tab. Do not alter autopopulated cells. All errors in the Smelter Reference List should be reported to CFSI by contacting info@conflictreesmelting.org.
