X Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2021.

Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Ecomass Technologies, LP (hereinafter "Ecomass") is not an "issuer" or a "registrant" with the SEC and is therefore not required to file the annual disclosures required by Section 1502 of the Dodd-Frank Act (hereinafter the "Act").

However, Ecomass imports tungsten products in various forms for manufacture or resale and, as a "non-issuer supplier" in support of our customers who may be required to file such annual disclosures pursuant to the Act, Ecomass makes the following statements and declarations:

In accordance with the execution of Ecomass's stated Policy, Ecomass has concluded in good faith that for the calendar year ending December 31, 2021:

a) Ecomass has manufactured and contracted to manufacture products as to which tungsten, a "conflict mineral" as defined in the Act, is necessary to the functionality or production of such products and is therefore a "necessary conflict mineral" as defined in the Act.

b) Ecomass's primary means of determining country of origin of its necessary conflict mineral is by conducting a supply-chain survey with direct suppliers using the Responsible Minerals Initiative ("RMI") Conflict Minerals Reporting Template ("CMRT") and comparing the results of the survey on smelter information with RMI's Conformant Tungsten Smelter List. Ecomass surveyed 100% of its direct suppliers who collectively represent 100% of total procurement activities for its necessary conflict mineral and 100% of them have provided a response to the supply-chain survey. Based on a "reasonable country of origin inquiry" ("RCOI") performed in good faith and reasonably designed to determine whether any of its conflict mineral that is not from recycled or scrap sources originated in the Covered Countries, Ecomass knows or has reason to believe that none of its necessary conflict mineral originated or may have originated in the Democratic Republic of the Congo or an adjoining country (collectively, sometimes referred to as the "Covered Countries") or knows or has reason to believe that its necessary conflict mineral is from recycled or scrap sources. Ecomass's RCOI employed a combination of measures to determine whether the necessary conflict mineral in Ecomass's products originated from the Covered Countries.

c) As a result of performing the RCOI and based on a careful review of the results thereof, Ecomass has concluded that (i) its necessary conflict mineral did not originate in a Covered Country, (ii) its necessary conflict mineral came from recycled or scrap sources; (iii) it has no reason to believe that its necessary conflict mineral may have originated in a Covered Country, or (iv) its necessary conflict mineral was "outside the supply chain" (as referenced in the Act and defined in SEC Final Rule, p. 129) before January 31, 2013.

d) Ecomass has determined that the RCOI survey completed by its suppliers represents the most reasonable effort Ecomass can make to determine the mines or locations of origin of any necessary conflict minerals contained in its supply chain. Ecomass's due diligence on the source and chain of custody of the necessary conflict minerals revealed there were no exceptions to the statements in Item 1.01 (b) & (c) above. 100% of Ecomass vendors supplying conflict mineral tungsten are listed by RMI in "Table 1: Responsible Minerals Assurance Process (RMAP) Conformant Tungsten Smelters". This listing indicates they are TI-CMC Members and have been determined to be conformant with the RMAP Supply Chain Transparency Smelter Audit Protocol for Tungsten by completing a RMAP conformance audit conducted by an independent third party, so that Ecomass is in full compliance with the Act.

e) Attached is Exhibit 1.01 "Ecomass Form SD Supply Chain Summary – CMRT" containing a summary of the information collected from all supply-chain survey respondents. As stated above, Ecomass is not required to file this Specialized Disclosure Form (Form SD) with the SEC. Furthermore, even if filing was required for Ecomass's Form SD, the facts and conclusions of the RCOI dictate that neither (i) a Conflict Minerals Report; (ii) an Independent Private Sector Audit; or (iii) additional due diligence measures would be required by the Act. Form SD is posted to a publicly available Internet site at <u>www.ecomass.com</u>.

Section 2 – Exhibits

Item 2.01 Exhibits

Exhibit 1.01 - "Ecomass Form SD Supply Chain Summary - CMRT" as required by Items 1.01 and 2.01 of this Form.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 as applicable to Ecomass's customers who may be subject to the Act, Ecomass has duly caused this report to be signed on its behalf by the duly authorized undersigned.

The purpose of this document is to collect sourcing information on tin, tantalum, tungsten and gold used in products Link to Terms & Conditions Mandatory fields are noted with an asterisk (*). Consult the instructions tab for guidance on how to answer each question.										
Company Information Company Name (1) [Compass Technologies										
Declaration Scope or Class (*): Description of Scope:	A. Company									
Company Unique ID: Company Unique ID Authority: double company	143322760 DUNS 4101 Parkstone Heights Drive, Suite 380, Austin, TX 78746-7482									
Contact Name (*) Email - Contact (*) Phone - Contact (*)	Robert Durkee									
Authorizer (*): Title - Authorizer: Email - Authorizer (*): Phone - Authorizer Effective Date (*):	President durkee@ecomass.com 512-306-0020 Ext 1									
Answer the following questions 1 - 8 based on the declaration scope indicated above										
1) Is any 3TG intentionally added or used in the product(s) or in the production process? (*) Tantalum	Answer No	Comments								
Tin Gold Tungsten (*)	No Yes									
2) Does any 3TG remain in the product(s)? (*) Tantalum	Answer	Comments								
Tin Gold Tungsten (*)	Yes									
3) Do any of the smelters in your supply chain source the 3TG from the covered countries? (SEC term, see definitions tab) (*)	Answer	Comments								
Tantalum Tin Gold										
Tungsten (*)	Yes									
4) Do any of the smelters in your supply chain source the 3TG from conflict-affected and high-risk areas? (*)	Answer	Comments								
Tantalum Tin Gold										
Tungsten (*)	Yes									
5) Does 100 percent of the 3TG (necessary to the functionality or production of your products) originate from recycled or scrap sources? (*) Tantalum	Answer	Comments								
Tin Gold Tungsten (*)	No									
6) What percentage of relevant suppliers have provided a response to your supply chain survey? (*) Tantalum	Answer	Comments								
Tin Gold	100%									
Tungsten (*)										
7) Have you identified all of the smelters supplying the 3TG to your supply chain? (*) Tantalum Tin	Answer	Comments								
Gold Tungsten (*)	Yes									
8) Has all applicable smelter information received by your company been reported in this declaration? (*) Tantalum Tin	Answer	Comments								
Gold Tungsten (*)	Yes									
Answer the Fo Question A. Have you established a responsible minerals sourcing policy? (*)	Ilowing Questions a Answer Yes	t a Company Level Comments								
A. have you established a responsible minerals sourcing policy (*) R. Is your responsible minerals sourcing policy publicly available on your website? (Note – If yes, the user shall specify the URL in the comment field.) (*)	Yes	www.ecoma.ss.com								
C. Do you require your direct suppliers to source the 3TG from smelters whose due diligence practices have been validated by an independent third party audit program? (*)	Yes									
D. Have you implemented due diligence measures for responsible sourcing? (*)	Yes									
E. Does your company conduct Conflict Minerals survey(s) of your relevant supplier(s)? (*)	Yes, in conformance	with IPC1755 (e.g., D								
F. Do you review due diligence information received from your suppliers against your company's expectations? (*)	Yes									
G. Does your review process include corrective action management? (*)	Yes									
H. Is your company required to file an annual conflict minerals disclosure? (*)	No	alle recruit								

TO BEGIN:		c20NSvo		Link to "RMAP Conformant Smelter List"	
Option A: If you know the Smelter Identification Number, input the number in Column A (columns B, C, E, F, G, I and J will auto-populate); D will grey out. Option B: If you have a Metal and Smelter Look-up name combination, complete the following steps: Step J. Schect Metal in column B Step Z. Schect from drapdown in column C (wrong combination will trigger RED color)					
Option C Ifyou have a Metal and Smetter Name combination, complete the following steps: Step 1. Select Metai in column B Step 2. Select "Smetter Not Listed" in the Smetter Look up drop down and complete columns D & E Step 3. Enter all available smeller information in columns H HraveyQ Q		© 2021 Responsible Minerals Initiative. All rights reserved.			Revision 6.1 April 28, 2021
(*) Mandatory fields are noted with an asterisk. (1) Entry required when Smelter Look-up = "Smelter not listed"					
NOTE: A combination of Options A, B and C may be used to complete the Smelter List. Do not alter autopopulated cells. All errors in the Smelter Look-up should be reported to RMI by contacting RM(@responsiblebusiness.org.
