

RoHS Declaration – Certificate of Compliance

Ecomass Technologies manufactures certain filled plastic compounds described on its website at www.ecomass.com hereafter referred to as Ecomass® Compounds. Ecomass Technologies certifies that Ecomass Compounds are in compliance and conform to China's Management Methods for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products, sometimes referred to as China RoHS 2, which became effective on July 1, 2016. The RoHS 2 Directive restricts the use of certain substances including lead, mercury, cadmium, hexavalent chromium and certain halogenated flame retardants such as PBB and PBDE in electrical and electronic equipment.

All Ecomass Compounds have less than the RoHS 2 limits stated below for the six restricted use substances. This Declaration is based on our analysis, vendor supplied analysis or material certifications, and/or lab test results of the component raw materials used in the manufacture of Ecomass Compounds.

Restricted Substance	Maximum Limit (%)
Lead (Pb)	0.1
Mercury (Hg)	0.1
Cadmium (Cd)	0.01
Hexavalent chromium (Cr6+)	0.1
Polybrominated biphenyls (PBB)	0.1
Polybrominated diphenyl ethers (PBDE)	0.1
