CALIFORNIA PROPOSITION 65 DECLARATION

Dear Customers and Concerned Parties,

This certificate is intended to inform customers and concerned parties of Ecomass Technologies that items produced by Ecomass Technologies do not contain chemicals which are listed on California's Safe Drinking Water and Toxic Enforcement Act of 1986. This Act, commonly known as Proposition 65 (Prop 65), establishes a list of chemicals which the state of California's risk assessment process has determined present a risk of cancer, birth defects, or other reproductive harm. The Proposition 65 chemical list can be found at:

<https://oehha.ca.gov/proposition-65/proposition-65-list>

Ecomass Technologies is committed to providing safe, high quality products. We have worked with our vendors and our supply chain partners to ensure the purchase of raw materials that will meet Prop 65 standards. Ecomass Technologies will continue to monitor the Proposition 65 regulations for any new chemical additions. Ecomass Technologies will compare any newly listed chemicals with the raw materials in our finished products and communicate this information to all customers and concerned parties.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Durkee, III".

Robert R. Durkee, III
President
